

SOCIAL WORK CONTACTS MODULE

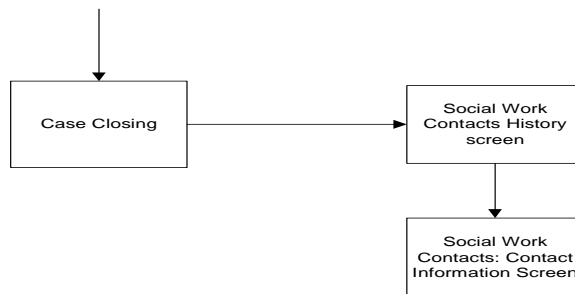

SWSS PROJECT

SCREEN IMAGES AND SYSTEM FLOW

Created 12/13/2000

1 System Flow

The user enters Social Work Contacts from the Case Closing module. Social Work Contacts consists of two screens. The first to appear is a history screen. If there are no contacts recorded, it will show as blank. From the history screen the worker may choose to Add a new contact, or Update, if there is an existing contact. Then the next screen, Contact Information, appears for data gathering. After it is completed and the worker clicks the Continue button, the history screen reappears with the entered contact information showing. After completing Social Work Contacts, the process returns to Case Closing.

2 Screen Images

The screenshot shows a software interface titled "Services Worker Support System - Children". It features a menu bar with "File", "Sections", "Autoflow", "Corrections", and "Help". A yellow pushpin icon is next to the "Contact Information" title. To the right, a box displays case details: Case Name: **Goblin Green**, Log #: **116807**, Case #: **X1987342A**, Program: **JJ**, Assigned: **3300000159**, and Status: **Active**. Below this is a "Social Work Contacts" section with a table header: Date, Name, Location, Method, Summary, Notes, Scheduled, and Kept. The table body is empty. To the right of the table are three buttons: "Add Contact Information", "Update Contact Information", and "Case Closing". At the bottom left, a text box says "Select to add a new contact."

Date	Name	Location	Method	Summary	Notes	Scheduled	Kept
------	------	----------	--------	---------	-------	-----------	------
